## TERMS OF SALE

1. Every item is guaranteed to be as represented, and to give satisfaction, as in all past Bolender sales.
2. All bids are by mail, in fairness to all those who could not attend personally.
3. There are positively no reserves on any item by anyone, and every lot will be sold to the highest bidder, at so much for the lot. All bids will be executed below your bids where other offers permit, in good faith. Where two or more bids are exactly the same on any lot, or tied, the lot goes to the first bidder at exactly his bid.
4. No unlimited bids will be accepted. Mark your highest limit on the bid sheet (on back page of catalogue) and if you need more space for bids, use any ordinary sheet of paper. We will buy as much under your bids as other actual offers permit.
5. New bidders or customers sending bids for the first time at these sales must positively give first class references, or else send a deposit of at least 25 per cent of the total amount of bids. References acceptable would be the name of some other dealer from whom you have had coins on open account, or name of some collector known to us, or else name of your bank. To those known to me who have established credit, purchases will be sent out promptly after the sale. In appreciation of this courtesy, the purchaser will remit promptly. Postage and registration or insurance is paid by the purchaser.
6. California buyers will be charged 4 per cent state sales tax.
7. The terms are prompt cash settlement after sale, and no time given. Collectors who are not certain that they can pay promptly are asked not to bid. The coins in the sale are the property of my clients, and I must make prompt settlement for them.
8. A list of all prices realized at this sale will be supplied for 50 cents, if ordered before the sale date.
9. Please send your bids now as there is little time left before the sale.

## FIFTY-DOLLARS ROUND GOLD PIECE OF 1855

- \* 1. 1855 \$50.00 Gold. Liberty head to left, 13 large six-pointed stars around; date below. Reverse: 50 DOLLARS within wreath, 900 THOUS. on label above. Around: WASS MOLITOR & CO. SAN FRANCISCO CALIFORNIA. Round, with reeded edge. A very fine specimen with every letter including word DOLLARS well struck up (usually so weak that it seldom shows up on most specimens). Coin has been scraped or tested on reverse edge above CAL, and also on lower reverse edge below MOLITOR. Any other defects are very minor scratches and nicks, trifling, for these heavy gold coins. This coin is much above average in quality, and the best I have handled in my 50 years in numismatics. It is from an old estate, and off the market for many years. Only one uncirculated specimen is known (worth \$4000 to \$5000). This one valued at \$2000 to \$2500. Interested bidders should write for photo contact prints of this coin, supplied free on request. These photos are supplied also for many other rare items in this sale, when designated with an asterisk (\*) before lot number.

### UNITED STATES SILVER DOLLARS

This is probably the most popular series of U.S. coins to day. This also is one of the finest collections we have had for several years. The quality throughout is superb, especially in case of the Morgan dollars from 1878 to 1904, which are being collected so much today, because of the fortunate availability. I have always contended that the time to buy any coins is when they are available. Never before have there been such good opportunities to get the Morgan dollars at reasonable prices, and this situation will not always be the same. Take for example the 1903 "S" dollar, of which a bag of 1000 came out four years ago. This was one of the first in recent years to be released by the bag, and the coins were quickly bought up, and are well on their way up in price now selling around \$35 each. Many collectors and dealers wish now they had purchased more of them. Some of the others presently appearing, will go the same way, given time. I am in the market to buy Morgan dollars of all dates and mints, as well as all other dates of silver dollars. All are gone from the San Francisco mint, and stocks in the Philadelphia mint dropping off fast, according to reliable information. Most big stocks in banks are used and circulated coins, of no value to collectors. With late date half-dollars, and other U.S. coins, even nickels too, now at high or prohibitive prices in uncirculated condition, many collectors are switching to this series, the Morgan dollars of 1878 to 1904. These are the best "buys" in the market today, in my opinion. Because some of the dates and mints have been released in various banks over the country, hundreds of new collectors have joined our ranks, as they can get a few of them at face value, and many more at small cost. Dollars cost no more than uncirculated one-cent pieces, and you have a larger and certainly more beautiful coin, and better for shows and displays. Also, in case of panic, or bad times, the face value of your collection is 100 times as much, a consideration that would be helpful should days of darkness come. At the last three sales, more bids were received on the series of Morgan dollars, than on any other series in the sale. Coin market trends do change, and I have seen many such changes in my time. Please note that all coins in this sale have been carefully graded as to condition by Mr. Bolender personally, in every case, and are guaranteed to please the purchaser. Collectors of experience have found that there can be a difference in quality of these coins. Many being offered today should be in banks, and not

in cabinets of collectors. The coins in this great collection are quality coins.

A new up-to-date Valuation List of the United States Silver Dollars from 1794 to 1803 has recently been issued, copyrighted by M. H. Bolender. About 175 different varieties are priced in five different grades of condition. Since some of the rarities are worth much more than common varieties of the same date, every big collector ought to be posted on values. Price of list is \$1.25.

- \*158. **1795 Silver Dollar. B-1.** Flowing hair, 15 stars. Reverse has 2 leaves under each wing of eagle, and 19 berries in wreath. Very fine. \$60. Send for photo prints.
- \*159. **1795 Silver Dollar. B-15.** Draped bust, well centered, 15 stars. Reverse with eagle much smaller than preceding coin. Only 6 berries in olive branch. Small letters in legend. **Brilliant uncirculated.** Magnificent sharp impressions, with all the stars well filled, beautiful lustrous hair, and eagle's feathers nice and sharp as they come. A planchet defect 1½x3 mm. on right obverse edge extends into border milling near 12th star. One of the best, it would be cheap at \$160. **Plate.**
- \*160 **1796 Dollar. B-4.** Fillet bust, small date, 15 stars. Reverse: small eagle on clouds, large letters in legend. Very fine. \$75. **Plate.**
- \*161. **1797 Dollar. B-1.** Fillet bust, 16 stars, variety with 7 stars at right of bust. **Very fine.** Rare indeed, as the total coinage of all kinds for this year was only 7776 pieces. Now lists at \$85 in my new valuation list of all the early varieties of dollars, just published a few months ago. **Plate.**
- \*162. **1798 Dollar.** Rare variety with 13 stars and small eagle. B-1a. Very good, nearly fine. A good value at \$50. Send for photo print.
- 163. **1798 Dollar. B-27.** Variety with high 8 in date. Very good, dark toning. \$25.
- \*164. **1799 over '98 dollar.** Stars very close together. B-1. One of the rare varieties of two dozen different die varieties of 1799 dollars. Very fine. Now lists in my new valuation list at \$90.

Rev. 50 CENTS in wreath, STANDARD SILVER above; date below. Reeded edge. AW-908. Silver proof. This coin and the two following were designed by William Barber, with a new plan for coinage, the intention being to reduce the weight to prevent hoarding and importation, that they may be current whether gold were at a par with paper money or at a high premium, and that their value should depend upon the authority of their issue rather than upon bullion value. Thus the coin is about 20% lighter in weight than the regular issue. The following two lots are in the same group of experimental coinage. This piece is from the great King Farouk coll'n. \$40.

#### **UNITED STATES FRACTIONAL CURRENCY**

##### **From a very old collection**

Note. — The following remarkably fine collection is the first important offering of this material since I sold the King Farouk collection of 130 lots in my 188th sale. I have very little in stock and few fine collections are turning up today. To interested collectors may I repeat that the time to get such desirable material is exactly when it is offered. I can assure you that it will not any cheaper. It has been going up along with the old large size currency. This series has been included in Robert Friedberg's splendid book on paper money, and is there fully illustrated, and values given. Other references include Valentine's book, and Raymond's standard catalogue. All are accepted authorities, and I have for reference used "F" for Friedberg, "R" for Raymond, and "V" for Valentine. Please do not overlook the several great rarities, such as the genuine Bristol Board proofs of the third issue, that have never before been offered at auction sale.

### THE EXCESSIVELY RARE GENUINE BRISTOL BOARD PROOFS

1415. **Third Issue 50-Cents Greenback** with "50" at ends without surcharges. **Genuine Bristol Board Proof** of this reverse. Valentine 89a. Very fine. This and the following lot are not the "pictures" cut from Heath's Counterfeit Detector, which exist in large numbers, but are the pedigreed items direct from the desk of General F. E. Spinner himself, treasurer of the United States from 1861 to 1875, and signer of many of the fractional currency notes. They are about five times as rare as the 50c Spinner note signed by Allison & New, Friedberg's No. 1330, Raymond's No. 56. It is my opinion that only 4

- or 5 of these bristol board proofs exist. A great prize for the fractional currency collector, I believe it is the first time these were ever offered in any auction sale. Estimate \$250 or more.
1416. **Third Issue 50-Cents Greenback with "50" in center without surcharges. Genuine Bristol Board Proof of this reverse. Valentine 90a. Very fine. See remarks in above description. Excessively rare, as last. The chance of a lifetime! \$250.**

1420. **Same as last, but with only the design numeral "1". R-41b, F-1341. Unc. choice. Cat. \$12.50.**
1421. **Same, but with only the design letter "a". R-41c, F-1342. Unc. Cat. \$12.50.**

**THIRD ISSUE FRACTIONAL CURRENCY  
RED-BACKS and AUTOGRAPH SIGNATURES**

1422. **10-Cents Washington redback. R-43, F-1251. Unc. perfect. \$10.**

1425. **50-Cents Justice redback. R-45, F-1343. Unc. Rare. Cat. \$15.**
1426. **50-Cents Justice redback, with reverse surcharge A-2-6-5. Raymond No. 46, Friedberg No. 1347. Unc. superb. \$15.**
1427. **Same as preceding, with design numeral "1" added. R-48b, F-1349. Ex. fine; 4 small pin holes and has been folded across center. Nice margins, and quite rare, lacking in the King Farouk coll'n. \$15.**
1428. **Same, but variety with only the design letter "a". R-48c, F-1350. Very fine. Cat. \$15 in this condition. Rare, and not in Farouk sale.**
1429. **10-Cents redback, with autograph signatures of Colby & Spinner. R-49, F-1253. Unc. nice margins. \$10.**
1430. **10-Cents reback, with autograph signatures of Jeffries & Spinner. R-50, F-1254. Uncirculated, another gem as are most all notes in this famous collection. Cat. \$15.**

- Rare, and lacking Farouk's coll'n., showing that money does not always get things wanted.
1431. 50-Cents Justice redback, with autograph signatures of Colby & Spinner. R-51, F1355. Unc. Rare. Cat. \$20.
1432. 50-Cents Justice redback, with reverse surcharges A-2-6-5, and with Colby-Spinner autographs also. R-52, F-1356. Very good; torn at left corner, and small bit 4 mm. missing at left edge, and a 2 mm. hole at signature. However, it is very rare, and an acceptable piece, at around \$12.50. (Unc. cat. \$30).
1433. 50-Cents Justice, fibre paper redback. Autograph signatures Colby & Spinner. Reverse surcharge S-2-6-4. Raymond 53, F-1357, but fibre paper. Very rare. \$50.
1434. 50-Cents Spinner redback with autograph signatures of Colby & Spinner. With surcharge A-2-6-5 on back. R-54, F-1328. Unc. nice margins, as are all in this collection. Cat. \$15.
1435. 50-Cents Spinner redback with autograph signatures of Allison & Spinner. Surcharge A-2-6-5 on back. R-55, F-1329. Unc., superb, with nice margins. The catalogue price of \$30 is too low, and \$40 is about the value today. Ex. rare, more so than the fibre paper.

### SPECIMEN NOTES OF FRACTIONAL CURRENCY

The "specimen notes" usually have the word SPECIMEN printed in bronze on back, and are of the second and third issues only. All are rare today. They were issued mainly for Members of Congress to be distributed to their constituents, largely banks, for the purpose of detecting counterfeits, because of the many new and unfamiliar varieties of notes. All are printed on one side only, with SPECIMEN on back, although sometimes without SPECIMEN. They usually come in 2 pieces, a front and a back, but sometimes one front comes with two different backs, red & green, such as lot No. 1464 below. Some were afterwards pasted together and used as regular currency, which becoming moist would come apart.

1451. **5-cents Washington Specimen Notes for Second Issue.** Washington in bronze oval frame. Front and back separate, 2 pcs. With word SPECIMEN in gilt letters on reverse side of each. Very wide margins 8 to 18 mm. wide. Uncirculated beautiful superb pair, superior to the King Farouk specimens which I sold for \$13.75 in my sale of Mar. 11, 1955. Valentine 137 & 141. Worth \$20.

#### KING FAROUK COLLECTION OF "BULLET MONEY" OF SIAM

The unit of the silver coinage of Siam is the tical, for which the Siamese term is the bat. The early coinage of Siam was in spherical form, commonly known as "Bullet Money." Generally these were coined in silver in 8 different sizes from 4 ticals to  $\frac{1}{32}$  tical, these all based on weight. The 1 tical weighs close to half an ounce, or 237 grains troy. The "Bullet Money" coins were in use from the 13th century down to 1861, when the first ordinary round coins were made for Siam, in the Birmingham mint in England. The "Bullet Money" pieces are very odd, curious, and interesting coins, and always attract a lot of attention in displays and shows. Those coined in the metal antimony are all early coinage, and very rare. This remarkable collection from the King Farouk treasures, contain many rarities. Nearly all were purchased from London dealers, some at very high prices. Every collection should own at least one specimen from this famous collection.

(Will be sold regardless of cost, same as all other items in this sale.)

## COIN COLLECTORS' COLUMN OF COMMENTS

Rare coins and paper money for everybody are to be sold in this sale. Not always do we have so wide a variety, that we can expect a bid sheet from nearly every person who receives this catalogue. Our mailing list has grown so large (over 16,000 names of collectors on our lists) that it becomes necessary to revise it, due to high costs of printing such a catalogue, and distributing it. Therefore, **IF YOU ARE NOT BIDDING AT THIS SALE**, please drop a card or letter in the mail, requesting that we continue your name on the mailing list. If we do not hear from you, or receive bids from you, we will consider that you are no longer interested.

**Photographic contact prints** have been made of many of the choice and rare coins in this sale. These are indicated with an asterisk (\*) in front of the lot number. If you are interested in placing bids on any of these items, the photo prints will be sent free on request, showing both sides of the coin. These must be returned to me promptly, using stamped envelope that comes along with the prints, as they must be available for other interested bidders also. After the sale, prints will be mailed to purchasers of these coins. These prints will show you the quality of the coin better than the customary catalogue plates.

**Collectors of experience** have found that not all dealers classify the condition of coins alike. To the collector this should be a very important matter, and wise collectors soon learn where to buy their coins, and where not to do so. Mr. Bolender began to collect and study coins just 50 years ago. He is from the old school, and learned to classify coins from the Chapmans, Elder, Proskey, and Lyman H. Low, attending many of their sales in person. Much has been said and written on the subject of condition of coins, in this country, in recent years. The matter rests upon the honesty and integrity, and the knowledge and experience of the dealer. Mr. Bolender believes that a coin or note should be described exactly and carefully, and the same whether he is buying or selling it. In auction his position is neutral between the buyer and the seller or owner, and every coin is described by Mr. Bolender personally, and never by the consignor. The many years of success with these 190 sales would never have come about, without this care.

A coin described as "fair" is not a poor or worthless coin, if it is rare. Fair coins show at least half of the design and lettering. Good coins are often not badly worn, and they must show all design and letters and date plainly. Fine coins have very little wear, and such coins as Indian cents and Liberty head nickels must show all letters of word LIBERTY clearly. If any of these coins have bad nicks, dents, scratches, planchet defects, corrosion, or other defects, such defects should be also noted. A good coin ought to be "good" and not "bad". A fine coin should be very pleasing to the eye. Very fine, extremely fine, and uncirculated coins must all be choice pieces, of desirable quality, and defects should be stated. It is not fun to have to return coins that are not as represented. It can be delightful pleasure to receive items that satisfy.

**When you receive your coins**, your comments as to whether you like the condition of the coins sent you, or whether you do not, will be greatly appreciated. If anything is not satisfactory, you may be sure that Mr. Bolender will fairly consider your case.

**More requests than ever** come in for catalogues of these sales. Our supply of catalogues for the last sale was exhausted 10 days before the sale date. For any disappointments I apologize, but it is increasingly difficult to keep up with today's demand and interest in numismatics. Our advice is to get your bids in early, and requests for price lists before the sale date.

**Important.** Many new collectors bid at each of our sales. Too many of these send in their bid sheet only a few days before the sale date, with a reference for us to look up. Since it often requires from one to two weeks to process a reference and get replies, we cannot enter some of these bid sheets. If you are a new customer, and late with your bids, the proper way is to enclose postal money order or bank draft, or cash registered, for the required 25% deposit, and mail it as early as possible. Early bidders have a much better chance than late bidders, for there are often two or more bidding the same amount on a coin or bill, and then it goes to the first bidder.

**Efficiency in our office** is the reason why many of you received the price list of the last sale, before you received your

coins. All of the printed price lists were mailed first class **only 6 days after the sale date**. In this way, you can tell whether you bought anything, and what. Of course, it requires a few more days to get all the coins and bills sent out to the hundreds of purchasers. Please be patient. The largest orders are sent out first, and the smallest amounts go out last. This is why you may receive your price list before the coins. If your coins arrive without a statement, just wait a day or two for that to arrive, airmail.

### WHAT OTHER COLLECTORS WRITE

"The coins from your 190th auction all were highly satisfactory. Your conservative grading was a source of great pleasure for me, and I shall look forward to doing business with you in the future."

Capt. W. F. R. (U.S.M.C.)

"I feel that I must compliment you on your cataloguing. Every coin seemed to be very conservatively graded, which I find to be quite uncommon these days. Also, every coin that was attributed, was done correctly, and I checked them all. This in itself is a credit to you. I believe that yours is the first auction catalogue in recent years, in which I didn't find some errors in attribution."

R. P. (New York)

"The coins are pleasing in every way, as they always are coming from you. You are the only dealer that sends me coins way below my bids. Many always accept the full bids."

B. T. P. (New York)

"Wish to observe that I am becoming more and more appreciative of the high standard of merchandising you've maintained. Since my recovery from illness and return to collecting a few months back, I have really run into some shocking grading and cataloguing. My compliments to you for resisting the trend."

M. J. M. (California)

"I am very pleased with the way you handled the collection of coins of my late husband, and the fine results. Please accept my thanks."

Elizabeth Rogers (Florida)

"I have studied the **prices realized list** and notice a strong market trend. However, it is amazing how some recent and common coins continue to climb, while comparative rarities of other series continue to be neglected. It seems to me that too many coin collectors are like a flock of sheep. If I were younger I would go after some of the nice scarce neglected ones, and just lay them away for a few years." G. I. P. (Kansas)

"We want to thank you for the check, and great kindness to us. It was a wonderful sale you had, of my late husband's collection, results much appreciated, very satisfactory. Also you were much more prompt in settlement that we hoped for."

Alice Sternberg (Illinois)

**Biggest bargain in the sale** will be the price list at only 50 cents, if ordered in advance of the sale.
